

Students and staff at **South Vienna Middle School** had a crazy fun experience packing **delicious, healthy meals** for our neighbors in need in Ohio!

# School Activity with LOCAL IMPACT!

- // Having a Feed the Funnel Party was an **unforgettable** experience. I felt a **great feeling in my heart** knowing that I was helping somebody, because if I was in their shoes I would hope somebody would **do the same for me...**
- // Today's experience **really made me think**. It was an awesome experience that really makes you know **you are doing something right**.

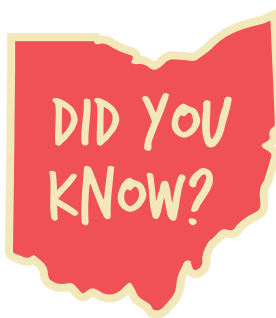

// Watching my students **embrace the mission** of The Pack Shack was incredible. My expectations for what my kids would get out of the Feed the Funnel party were far exceeded and **so much valuable learning** took place. As teachers, we are responsible for teaching students many things, but **no state mandate can impact lives as powerfully as a lesson in helping others**.
