

THE SHORT STORY...

The Pack Shack emerged in 2013 from several months of conversations regarding the needs of individuals and families within communities. During that time, we talked with and listened to many people and organizations who have an interest in their neighbors and the challenges they face. From those conversations, we were tasked with the following actions:

- ***Increase awareness about hunger issues affecting communities***
- ***Supply food and other provisions to nonprofits***
- ***Encourage people to get involved with local nonprofits.***

Our mission is to supply provisions and opportunities for our neighbors in need.

We currently advance this mission through two primary channels:

FEED THE FUNNEL PARTIES

We bring people together for crazy fun Feed the Funnel parties to pack thousands of delicious, healthy meals that are given to local nonprofit organizations across the country. Since 2014, tens of thousands of people across the country have packed millions of meals. Some of the great organizations with whom we've worked include: Walmart, Tyson Foods, KPMG, The Ohio State University, Goldman Sachs, AT&T, Anheuser Busch, and countless faith-based organizations and educational institutions.

We currently have operations teams in Arkansas, Kansas, and Ohio and are working to expand to additional communities over the next few years. We are introducing a new product in 2017 and are continuing our work to bring more healthy, delicious meals to communities in need. [Explore more at thepackshack.org](http://thepackshack.org)

BE NEIGHBORLY

Be Neighborly is a simple, convenient way for people to purchase and donate pre-filled grocery bags to participating nonprofits across the country. Whether as an individual or as a team, stocking the shelves of nonprofits organizations has never been easier!

Be Neighborly takes the legwork out of the traditional drive. A person simply selects a pre-filled bag to purchase and then chooses the participating nonprofit to receive the donated bag. There's no need to collect any items because we take care of getting the items to their intended destination through partnership with a major national retailer. With Be Neighborly, anyone with a smartphone has a drive right in the palm of their hand!

Be Neighborly makes it easy and convenient to provide much-needed items to neighbors in need in communities across the country! [Explore more at beneighborly.org](http://beneighborly.org).
